

How this scheme of work links to school vision and values (wellbeing, independence, communication, achievement):

In this topic students will be asked to complete research and a power point presentation about Communism and The Cold War and will then be sharing this in class. This will increase student’s skills in independent working and communication. Students will have the chance to explore how China changed from dynastic rule to communist rule. They will study different cultures and political beliefs and see how these differences impacted the emergence of the Cold War.

Link Priorities that will be explored in this scheme of work are: **Transfer and generalise skills – able to apply knowledge and skills they learn at school to different activities and environments.** **13. Emotional Development – Theory of Mind – able to see a situation from another person’s perspective and adjust their behaviour to support others.** **16. Problem solving – able to find solutions to different sized problems.**
